Mini DisplayPort® to DVI Video Adapter Converter - White

StarTech ID: MDP2DVIW

The MDP2DVIW passive Mini DisplayPort® to DVI Adapter (White) offers an easy-to-use DVI/Mini-DisplayPort link that enables you to connect a DVI computer monitor to a device with a Mini-DisplayPort output (such as a laptop video out port) or video card.

The adapter supports high resolution output up to 1920x1200, offering a cost-effective solution for mirroring or extending a computer desktop onto a second display. Plus, because the adapter functions passively, it can be used with a DVI to HDMI adapter, to connect an HDMI-equipped monitor to a Mini DisplayPort output.

This versatile Mini DisplayPort to DVI adapter requires a multimode DisplayPort port (DisplayPort ++) connection to function, and is compatible with Intel® Thunderbolt™ output when directly connected to a supporting DisplayPort over Thunderbolt I/O port.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications

- Ideal for digital entertainment centers, home offices, business conference rooms and trade shows using DVI displays
- Keep your existing DVI monitor for use with your new Mini DisplayPort® device
- Ideal for using a DVI monitor as a secondary display connected through a Mini DisplayPort output

Features

- Easy to use cable, no software required
- Supports resolutions up to 1920x1200 and HDTV resolutions up to 1080p
- Compatible with Intel® Thunderbolt™
